

Take our word for it...

"I originally chose LNS based on a referral from a friend and the low price. I found that I enjoy being more involved in the school as compared to a non-parent preschool. At least weekly, Jacob tells me how much he loves school. I have never had to fight with him to get ready in the morning- he wants to go. Developmentally he is counting and talking about math concepts all the time, and he is starting to sound out letters and words. He is writing his name much clearer than he was before school started. The benefits of a co-op are that I feel like I really know what goes on at school on a daily basis, and I feel a closer relationship to the teachers than in our previous school (not a co-op). We couldn't be happier with LNS."

– Jill R.

"I chose LNS because I am an alumni! I attended the school 32 years ago. I feel strongly about the benefits of a play based preschool experience. Being a part of a coop enables parents to have input on decisions that will directly affect our children and allows constant contact between teachers and other parents."

– Devon K.

"My son continued his LNS friendships into elementary school. Most of his close friends are still the kids he went to LNS with."

– Kristin S.

"What a great way to introduce children to a school setting! LNS provides a safe and caring environment that encourages positive relationships while developing those skills required for academic success in the future. I believe a child-centered, play-based approach to learning is best for my child and am thankful that such a program exists. Through our experience with LNS, there is no doubt in my mind that my child has developed and progressed to the point where he is more than ready for kindergarten next year. What a privilege it has been to be a part of my child's very first school experience!"

– Melissa G.

"We were looking for a structured preschool option for our four-year-old that was not five days a week. LNS is one of the only programs out there that gives kids the opportunity to have a school experience and also have days at home before school everyday starts at five. And we feel that time has been precious with her. The parental commitment to be in the classroom has been great. It happens only a few times of year, but provides you that rare glimpse of "what your child does all day" that a note home or asking them just doesn't convey. The most telling thing about the success of our daughter at LNS this year is that she says "loves school" and looks forward to it each and every day."
